Re: to ASK For an extention to Submit 22SS

My Name is Brian bill 82702-053. I WAS sentenced in your court to 3 life terms. I am currently at HELLTON RA(VSP) I was assigned a Public defender to oversee my appeals but due to constant lockdowns communication was very difficult me being in W.V. and he in Vermon +, after my appeal for cert he sent me a letter stating that that concluded his representation of me with no disposition of my discovering evidence or for the communication during the course of my dealings with other individuals I learned that I could put in a 22SS pro se and would like to do so I sent away for the form from the court but due to lockdowns barely had time to work on this very important glimmer of hope. I have no access to my discovery ev. at this time which is the reason why there is no case I am currently locked down and will include a memo from the jail if I pray that you grant me an extension (90 days) I will strive to have it in sooner but I implore your honor to please don't take away my last chance to at least try to get a sentence with numbers and a little hope of surviving said sentence instead of this hopeless existence. I have lost my mother my wife (divorce) and my son hates me please consider my request, thank you for your time.
